	An introduction to neural information processing /	
	Liang, Peiji	
	Springer, 2016	
	R338 /L693 /E	
	<p>This book provides an overview of neural information processing research, which is one of the most important branches of neuroscience today. Neural information processing is an interdisciplinary subject, and the merging interaction between neuroscience and mathematics, physics, as well as information science plays...</p>
